

the Regional Administrator. Such supervisory employee or officer is considered to exercise concurrent authority with the Regional Administrator.

[39 FR 5629, Feb. 14, 1974]

Subpart B—Developmental Change Supplements

§ 1953.10 Definitions.

(a) Each State with a developmental plan must set forth in its plan those changes which are designed to make its program at least as effective as the Federal program and a timetable for making such changes in accordance with 29 CFR 1902.2(b). A developmental change includes the completion of these developmental steps as well as amendments required in response to failure to meet any steps in the developmental schedule.

(b) Developmental steps must be completed within the three year period immediately following commencement of operations. (See § 1902.2(b) of this chapter). The date of "commencement of operations" is ordinarily the plan approval date if the State initiates inspections and enforcement activity with respect to standards covered by the approved plan in accordance with the legal authority existing in the State at the time of approval. But in any case, commencement of operations can be no later than the effective date of the grant approved under section 23(g) of the Act. A State may also commence operations by initiating inspections and enforcement activity at some point after approval and prior to the effective date of the grant. Following approval, each State will submit a letter to the Regional Administrator setting the date for commencement operations. These letters will be included in the approved plans.

§ 1953.11 Submission and consideration.

(a) A supplement is required whenever a State completes a developmental step or fails to meet any developmental step. If a State fails to submit the required supplement when the developmental step was scheduled for completion, the Regional Administrator shall notify the State that a

supplement is required and set a time period for submission of the supplement generally not to exceed 30 days.

(b)(1) An authorized representative of the State agency or agencies designated under section 18(c)(1) to administer the plan shall submit the supplement with 6 copies to the appropriate Regional Administrator for the Occupational Safety and Health Administration.

(2) When a developmental step is missed, the supplement should contain the change with related documentation on the impact of the change on the State plan as well as the following information:

(i) An explanation of why the step was not completed;

(ii) A new date for completion of the step;

(iii) A revised developmental schedule showing specific actions the State proposes to take whenever the missed step would require a new timetable; and

(iv) A demonstration that the current operating program is substantial enough to contribute to the protection of employees in the State through the enforcement of standards.

Where appropriate, changes requiring legislative action will be supported as required in § 1902.2(b) of this chapter.

(c) Upon receipt of the supplement, the Regional Administrator shall make a preliminary review of the changes. If his examination reveals any defect in the supplement, the Regional Administrator shall offer assistance to the State and shall provide the agency an opportunity, generally not to exceed 30 days, to cure such defect. After the preliminary review and after affording the State such opportunity to cure defects, the Regional Administrator, except as provided in § 1953.4 for review of standards supplements, shall promptly submit the supplement to the Assistant Secretary.

(d)(1) Upon receipt of the supplement from the Regional Administrator, the Assistant Secretary shall examine the change and supporting material. If examination discloses no cause for rejecting the change, the procedures provided in §§ 1902.11 and 1902.12 of this chapter for public comment and approval of State plans shall be followed.
